Or you can take a refreshing swim in your choice of the outdoor or indoor pools or visit the boutique or library. At Chiva-Som the entire resort is devoted to rejuvenating and restoring the human body and mind to the absolute peak of health and wellness.

Niranlada Medi-Spa

Chiva-Som's newly renovated, Niranlada Medi-Spa complements their traditional approach to overall wellness by offering a wide range of treatments from relaxing, holistic spa experiences, to those using modern aesthetic technology and micro-invasive cosmetic treatments. An initial consultation utilising VISIA 3-dimensional computerised facial imaging and colour photography helps their experts evaluate your current skin condition and determine which treatments are best suited for you.

We are honoured that the Niranlada Medi-Spa now features two holistic GAYLIA KRISTENSEN Facial Treatments along with 3 LPG machine-based Facial Sculpting Treatments performed with our products.
