Infused with calming Fermented Red Ginseng – inspired by Korean skin care rituals – this body oil calms and nourishes to deliver glowing skin.

Lightly infused with bright Bergamot, Neroli and Orange along with relaxing aromas of Patchouli and Sandalwood, it leaves skin soft and delicately scented.

exfoliate · energise · brighten

This dual-action, warming body exfoliant will energise, smooth & brighten dull skin, to give a radiant glow.

Indian Bamboo Stem physically exfoliates to refine skin texture and brighten tone. Papain (from Papaya) and Lactic Acid dissolve dull, dead cells, promoting skin's natural cell renewal process for brighter, more radiant skin.

Natural Sea Salt – prized by ancient Egyptians for its skin invigorating minerals – revitalises and hydrates.

A blend of replenishing bio-lipids helps to protect and strengthen the skin barrier. Extracts of Licorice, White Tea, Coffeeberry and Chamomile infuse skin with vital antioxidants, while oils of Tea Tree and Grapefruit Peel purify and refresh.

### notes to editors about Dermalogica

Dermalogica revolutionised the skin care industry when it emerged into the marketplace in 1986 with innovative formulations, which excluded common irritants including SD alcohol, lanolin, mineral oil and artificial colours and fragrances. Jane Wurwand developed the products to better support the advanced curriculum she has developed a few years earlier for The International Dermal Institute, which she also founded. Wurwand led the company's growth from an idea to the world's most requested professional skin care brand.

Dermalogica today is sold in more than 80 countries worldwide. Dermalogica products are available in select skin treatment centres on the recommendation of a qualified professional skin therapist in addition to the brand's concept spaces and online at [Dermalogica.com](http://Dermalogica.com).
