

Murad Launches at Kimpton Blythswood Square Spa, Glasgow

Murad skincare is pleased to announce its official partnership with Glasgow's first five-star hotel, Kimpton Blythswood Square Spa. The brand new 10,000 square ft space offers a select range of luxury and holistic treatments with nine luxury treatment rooms, a thermal suite, two relaxation pools and a lounge and café area. The spa brings Murad, the award-winning skincare brand founded by world-leading Dermatologist Dr. Howard Murad, to the residents of the city.

Inspired by the consultations that Dr. Murad gives his own patients, visitors can book in to experience the brand's results-driven Murad Method Facial designed entirely to be high performance and bespoke to each individual achieving instant, lasting results and revealing beautiful-looking skin.

Every facial begins with an in-depth, five-stage analysis of the skin. This allows the beauty therapist to treat multiple skin concerns in one prescriptive treatment, using professional strength products. The therapist will also provide nutrition advice and stress management advice to clients, as well as recommending an at-home skincare regime so the client can continue their journey to living younger and achieving healthy skin.

“

Helping as many people as possible achieve healthy skin and live happily is one of the goals on which I have based my research, my medical practise and my life. I am excited that Murad is expanding in Glasgow and will be available to anyone who is looking to improve the health and appearance of their skin

Howard Murad MD

Dr. Howard Murad, board-certified dermatologist and founder of Murad skincare.
