

CACI

Beautiful Skin Without Surgery

- TRADE PRESS RELEASE -

CACI Business Bounce Back after Lockdown Scheme

Rather than allow a second lockdown to stop us in our tracks, CACI is encouraging spas and salons to build their business for the future, with the **CACI Business Bounce Back After Lockdown Scheme**.

The scheme includes ordering and training in the **CACI Synergy** system during lockdown, taking delivery of the system post-lockdown, whilst paying nothing until salons/spas can re-open.

The Business Bounce Back offer requires: no capital outlay and low start repayments at just £50 + VAT per month* which means, that they only have to perform three treatments - this could be one client in the next six months - to cover repayments. In fact, if they treat just one client per day they could generate over £22,000 in the next six months.

*Terms and conditions apply. The new CACI Synergy system must be ordered before 27/11/20. The CACI Synergy system must be delivered on or before 21/12/20

The CACI Synergy features new S.P.E.D microcurrent technology and more treatment options than our previous CACI systems, it enables salons to generate multiple revenue streams by offering a wider variety of treatments that appeal to men and women of all ages and skin types.
